

## Chabad's Approach to Bar/Bat Mitzvah

What does it mean to become a Bar/Bat Mitzvah?  
What is its significance?  
How has it been celebrated through history?  
How do we celebrate the Bar/Bat Mitzvah at Chabad?

Find out all this and more, this Sunday, October 13 at 11:00am in the upstairs lobby.

## School Trip Date Moved to December 15

Last week we announced our school trip to the Children's Museum and there was an overwhelming response from the parents wanting to join the trip! Being that there are other groups booked for the original date and not enough room for our expanded group we are moving the trip date to December 15 **AND ALL PARENTS ARE INVITED TO JOIN US ON THE TRIP!**

## See what we have been learning!

KINDERGARTEN/  
GRADE 1 enjoyed their "alef" shaped Rice Krispie treats. We hope this puts a sweet start to the Hebrew letter lessons yet to come!

GRADE 4.  
After learning about how the 12 tribes of Israel came to be, through Abraham and Sara, we made our own family tree starting with our grandparents.

GRADE 2.  
The second grade went outside to feel the ground and see what conditions are needed to grow. How plants need rain a blessing from G-d to grow.

GRADE 3 Why waste? This week we learned a special mitzvah called baal tashchit. It's a very big Torah concept not to waste. To experience this mitzvah we took a bunch of recyclables and made them into awesome sculptures. Pictured here is a sukkah.

Cant wait to see you next week!

GRADE 5 studies The Jewish Home, the many components of life at home and beyond: respecting one's parents, affixing a mezuzah on the doorpost, eating kosher, making blessings

before food, cleanliness (yes, that's a Jewish value!).

GRADE 6.  
Grade six doing a hands on activity to help us understand how commendable hard work is.

GRADE 7.  
In class we went to the forest behind Chabad and discussed G-d's creation of the world and looked at the beauty and perfection of nature.
